

## Set up 1004MC Service with Flex MLS (generic)

To utilize the ClickFORMS 1004MC Service with this MLS, you must first export a data file.

### Configure the Export

**1** Run a search of a market you'd like to analyze. When your search results appear, click the **Export** link.

**2** You'll now be directed to the Export Data screen. Select **Generic Text Export** as the Custom Text Export format. Enter the verification text displayed in the image, and click **Export**.

**1. Select The Data To Be Exported**  
 Export all matches (242 records)

**2. Select The Type of Export**  
 Generic Text Export  
 The export format changed in January 2006 to use more accurate column descriptions. Check the box preceding this sentence if you would like the export old format. Please be aware, however, that the column descriptions may not accurately describe the contents of the data in the columns.  
 Custom Text Export CVR  
 E-Neighborhoods Export  
 Pocket Real Estate  
 Pocket Real Estate File v2.8  
 Include Entire MLS Contact Information  
 Toolkit CMA Export

**3. Please enter the verification text in the box below**  

**4. Click the Export button to receive the data**

1. Export All  
 2. Select Generic Text Export

Enter the text displayed in the image  
 Click Next

**3** You'll now be directed to the FlexMLS Text Export screen. You'll be prompted to download your file. When the File download window appears, click **Save**. (If your download doesn't begin automatically, click the link that appears.)

Click save when the File Download window appears

- 3 Select a memorable location (such as your Desktop) and name for your file, then click **Save**.

- 4 When the download is complete, click **Close**. You can now load this file into ClickFORMS.
