

Set up 1004MC Service with MLSpin

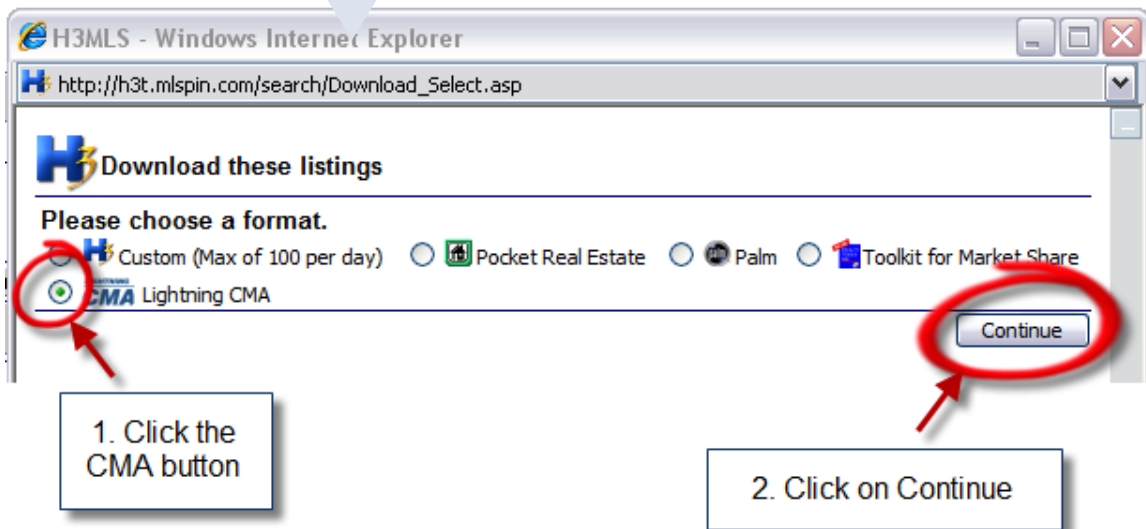

To utilize the ClickFORMS 1004MC Service with this MLS, you must first export a data file.

Configure the Export

- 1 Run a search of a market you'd like to analyze. When your search results appear, check the box to select all listings, then click the **Download** button. If there any listings you don't want to include, you can uncheck them after they've been selected.

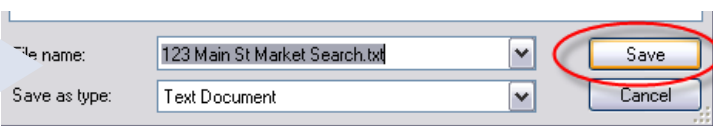

- 2 A download window will appear. Select the **Lightning CMA** format, then click the **Continue** button.

3 A File Download prompt will appear. Click the **Save** button.

4 Select a memorable location (such as your Desktop) and name for your file, then click **Save**.

5 When the download is complete, click **Close**. You can now load this file into the ClickFORMS 1004MC Service Wizard.
