

How To E-mail XML Files In ClickFORMS

1. In ClickFORMS, after creating your UAD Mismo XML file, go **File > Send To** and select **Mail Recipient**

2. In your email program (i.e. MS Outlook), click on **Insert**, and then **Attach File**.

3. Please navigate to the folder that contains your XML file that needs to be sent out.
By default the XML files are saved in **Documents > My ClickForms > UAD XML Files**.

4. Double click on the XML file and this action will attach it to the email message.
Then simply click on **Send**.
